\*Clubs outside of VIC to add travel/accommodation (at cost) if they want face to face delivery of program (face to face delivery could align around First Year players Induction).

### Important note around long term outcomes:

Activities above may result in some immediate and short-term impacts, however long-term sustainable reduction of gambling harm often relies on change beyond the scope of the program such as deeper shifts to club systems and social fabrics that underpin a club culture. Example – program recommends that the club appoints champion/s to drive change but the program having no oversight on level of buy-in or influence of champion (or an action for club leaders to role model desired behaviour change and inability for this program to monitor or truly gauge implementation of commitment to positive role modelling).
